GREAT LOSS OF LIFE IS FEARED

49 WORKMEN ARE RESCUED

While Hundreds of Others are Adrift
Or Drowned

SPECIAL TO THE DAILY DISPATCH:

Key West, Fla., Oct. 20, 1906, 2 p. m.—The Austrian steamer Jennie, Captain Dudnich, bound from Gulfport for Genoa has called at this port to land forty-nine workmen picked up at sea near the Bahama coast, 160 miles from Key West. The men were part of a force of 150 workmen belonging to Barge number four engaged on the east coast extension work. Most of the others were either killed or drowned in the storm early Thursday. Nine other barges crowded with workmen engaged in extension work were at sea with Barge number four. No news of them has been received and it is feared all were lost.

HURRICANE RAVAGED HAVANA

TWENTY PERSONS KILLED AND
THE DAMAGE TO PROPERTY
IS ENORMOUS.

Miami, Fla., Oct. 20.—The steamer St. Lucie, Captain Bravo commanding, has sunk off the Florida coast. One of the excursion steamers has arrived in port bringing sixty injured, who were taken to the hospital, and it is said there are twenty-eight dead bodies which will be brought up later.

Captain Bravo says that he anchored on the lee side of Elliott key, twenty-five miles south of Miami, Thursday morning and that soon after a tidal wave engulfed the island. He says there were 250 residents on the island, all of whom were lost. The St. Lucie was crushed by the same wave and of the 100 passengers on board twenty-five were killed. Captain Bravo was seriously injured.

A barge containing 100 people is said to have been torn away from its moorings at Elliott key and afterward picked up near the Bahama islands, fifty of her passengers having been drowned.

It is believed now that a portion of the Florida Fish and Produce company's fleet was destroyed. Manager Adams sent out one of his boats to look for the men and boats and on their return they reported no signs of the fleet. The fishing nets were found strewn on the shore.

DAMAGE AT HAVANA

PROPERTY LOSS IN CUBAN CAP-
ITAL PLACED AT TWO MIL-
LION DOLLARS.

Havana, Oct. 20.—A cyclone of unprecedented severity accompanied by a terrific downpour of rain, swept over the provinces of Havana and Pinar del Rio Wednesday night and resulted in twenty deaths in this city and the serious injury of a dozen or more persons. The damage is estimated at fully \$2,000,000. The dead are all Cubans of the poorer class.

decks. One hundred mules and twenty horses were swept overboard.

The total number of lighters sunk in the harbor has not yet been ascertained. Many of them were loaded with sugar and other merchandise, on which the loss will be great. The storm drove the lighters against the harbor bulkheads, where they were broken up or sunk. The harbor has been searched for dead and it is now believed that all the bodies have been found.

About Fifty Houses Damaged.

In Havana city about fifty houses were more or less damaged. The buildings of the University of Havana sustained damages amounting to many thousands of dollars. A partition wall in the American legation was blown down. The office furniture was ruined and the books and records of the legation were wet through. Eight persons were killed and four were injured by the collapse of a tenement house on Inquisidor street. The other fatalities resulted from falling signs and cornices, contact with live wires in the city or by drowning in the harbor.

The principal loss of life occurred in a tenement house on Inquisidor street occupied by many poor families. The projecting upper portion of this building collapsed and then the three floors gave way and fell. Eight of the inhabitants were killed and five were injured.

During the height of the storm there was great alarm among the guests in the various hotels. Doors, windows and skylights were blown in and the fierce rain flooded the rooms. The destruction of trees by the cyclone was a most remarkable feature. Throughout the length of the Prado scarcely one tree remained standing; they were nearly all uprooted. Havana has thus lost one of its chief beauties, for it will be many months before they can be replanted. The parks also were destroyed.

The streets in the lower part of the city were flooded to a depth of a foot or more and the lower floors of buildings were inundated. The electric power service was put out of commission and consequently no newspapers could be published Friday morning.

The injury to the sugar crop is not serious. The rivers of Havana and Pinar del Rio provinces have overflowed in the lowlands and horses, cattle and pigs by the hundreds have been drowned.

OUT IN THE ATLANTIC.

Hurricane That Swept Over Cuba Rag-
ing With Full Force.

Washington, Oct. 20.—The tropical hurricane that swept from Cuba to the Bahamas now appears to be raging with full force about 200 miles out in the Atlantic, its only shore effect being a falling barometer and a twenty-five mile wind blowing off the South Carolina coast. It is still hazardous for coasting craft along the Middle and South Atlantic coasts. The hurricane seems to have been temporarily checked in its northeastward movement and has not advanced in the past twelve hours, nor do the indications point to any change in the next twenty-four hours. Another storm is developing in Colorado.

DAMAGE OVERESTIMATED.

Reports of Destruction at Miami, Fla.,
Exaggerated.

Jacksonville, Fla., Oct. 20.—Passen-
gers arriving here from Miami report that the damage there by the hurricane was nothing like as serious as first reported. The elegant East Coast hotels at Miami and other East Coast points all escaped damage, there being no damage of consequence elsewhere north of Miami. At Miami the greatest damage was to small houses and fences.

Storm Rages for Ten Days.

San Salvador, Oct. 20.—The tempest has raged incessantly for ten days throughout the republic, flooding the rich valleys and resulting in great loss of life and the destruction of cattle and crops. The Salvadorean man-of-war IZALCO was lost at Acapulco. Guatemala and Honduras suffered severely. The losses amounting to millions of dollars.

Dutch Steamer Lost.

San Juan, P. R., Oct. 20.—The Red Star line steamer Philadelphia from La Guayra, Venezuela, for New York, has arrived here and reports that a Dutch steamer was lost in the cyclone at a point between Caracas and La Guayra.

TEN PERISH IN FLAMES.

Unable to Escape From Burning Board-
inghouse at Birmingham, Ala.

Birmingham, Ala., Oct. 20.—Ten men were burned to death, two seriously and perhaps fatally injured and a third slightly hurt as the result of a fire which destroyed the boardinghouse of Mrs. E. E. Moody early in the day.

The dead are: W. N. Nichols, D. B. Neal, W. B. Taylor, G. C. Preston, Edward Caldwell, E. E. Henshaw, Gordon D. Burns, William T. Hall, W. B. Livingston, Olin H. Hines.

The dead, with several exceptions, were street railway employees.

FOR DEPARTED MEMBERS.

Impressive Memorial Service Held by
Temperance Advocates.

Boston, Oct. 20.—An impressive memorial service for members who have died during the past three years was one of the leading events of the second day of the triennial convention of the World's Women's Christian Temperance Union in Tremont Temple.

Following an address on "The Menace of Mormonism," by Mrs. Maria Weed, the convention unanimously adopted a resolution endorsing the work of women in trying to secure a constitutional amendment prohibiting polygamy in the United States.

Mrs. Lillian M. N. Stevens of Portland, Me., who had been supported by the British delegates for the presidency of the World's union, has declined to be a candidate.

British Nobleman Marries an Actress.

London, Oct. 20.—It has been learned that the Hon. Henry Lyndhurst Bruce, eldest son of Lord Aber-
fire, and Camille Clifford, an American actress, were secretly married under a special license by the register on Oct. 11.

Several Injured in Collision.

New York, Oct. 20.—Robert Buttler, a ticket seller, was severely hurt and several other persons were cut and bruised when a Long Island railroad train crashed into a line of empty cars in the yards at the Belmont race track siding here.

CONTINUES OF LARGE VOLUME.

Retail Trade Active Despite Ordinary Rush Being Over.

New York, Oct. 20.—Bradstreet's review of trade says trade continues of large volume and while the ordinary rush of fall trade is over and next spring's is receiving attention, active retail demand has induced a heavy volume of reorder business from jobbers. Except in a few sections where mild weather last winter left unsold stocks on hand, supplies of goods are not excessive. Hence a continuance of the active reorder trade is likely, weather conditions allowing. Perhaps the most active branch of wholesaling and jobbing is that of cotton goods, which are in heavy demand, with slow deliveries still complained of. There is also a better tone to woolen goods, worsteds leading as heretofore. Prices are steady as a whole and the high range of all quotations does not seem as yet to be reflected in reduced sales. In general distributive lines the reports are almost uniformly favorable. Industries return reports of great activity, the iron and steel, metal working, coke, cotton, other textile, furniture, carpet and, indeed, practically all lines are rushed. Exceptions are found in shoes, which have not been as well ordered as a year ago for fall and winter, though excesses on last spring's account make a net gain for the year as a whole. There is complaint that low prices offered for grain are restricting sales by farmers in the West and Northwest, but lack of motive power and of cars is credited with holding back deliveries. There is complaint of slow trade in flour on domestic account, but export inquiry seems to have improved.

GOV. JOHNSON
IS GREETED

Good Sized Crowd Goes to Gardner's Hall to Hear Minnesota's Executive

HE CLAIMED ALL CREDIT
Declared that all Good Things Done in Past Two Years Were Due to Him

Gov. Johnson was the principal attraction at the meeting at Gardner hall last night. He made a strong effort to impress upon the people present that to his election alone was due all that had been done in any of the departments of the state government and even sought to take to himself and his insurance commissioner credit for the investigations and rejuvenation of the big New York life insurance companies. In the matter of the capital "I" he had Grover Cleveland skinned a mile.

The work of the republican attorney general he took personal credit for.

The work of the railroad commission, all of whom are republicans elected by the people, he took to himself, claiming credit to himself for the reductions in freight rates brought about by the investigations started by Attorney Mahan, and forced by the actions of President Stickney of the Great Western, both of whom he entirely forgot to mention.

He asked the people to give him credit for saving to the state moneys not yet collected and which no one knows will ever be collected, moneys that are involved in suits brought by a republican attorney general, and which if recovered at all will be recovered under the decision of a supreme court composed of republicans. He also claims that he should have credit for untold millions that he thinks will be recovered from an examination of the stumpage on the state lands under a law passed by a republican legislature.

He claimed that Senator Cole stole his ideas on state drainage and development from him and forgot to mention that when he, Johnson, was in the state senate he opposed state drainage, only taking it up two years ago when it had become popular as a republican measure.

Take it altogether it was a typical lawyer's plea, bringing out everything favorable to his own case and twisting the facts whichever way was necessary to give him the credit for the good things done by others—by men elected by the people and over whom he had no possible control.

AMUSEMENTS

The New "Monte Cristo."

The new production of "Monte Cristo" with James O'Neill as Edmond Dantes which will be seen at the opera house, Monday night, is one of the most spectacular from a scenic view-point that Mr. O'Neill has yet given the famous old Dumas play, and represents absolutely everything that could be obtained either by money or talent. There are eight different scenes and acts. Probably the most marvelous is the fourth act, the Hotel de Morcerf. The last act representing the forest of Fontainebleau at the dawn of day has been mentioned as the most artistic painting of a landscape ever seen on the stage. Mr. O'Neill's supporting company is said to be unusually strong. The curtain will rise promptly at eight o'clock for this performance, and intending patrons are earnestly requested to be in their seats at that hour.

Harry Beresford in "The Woman Hater"

The average auditor in the theatre does not realize how much a comedian depends upon a wink of the eye and a twist of the mouth. Facial expression is one of the chief mainstays of the comedian. In this phase of the actor's art Harry Beresford, who is starring in "The Woman Hater" excels. His mimicry is inimitable. Pantomime is always more difficult than elocution. At the same time Mr. Beresford is much more than a skillful pantomimist, for he excels in all of the essentials that go to make a great comedian. His methods are quiet but effective, and he never descends to horseplay to obtain a laugh. It is only a just tribute to state that since the death of Joseph Jefferson there is not a comedian on the stage who wins his laughs with such perfect artistry. Apart from his art Mr. Beresford possesses a personality that has made him the most popular player on the boards since Sol Smith Russell. "The Woman Hater" with Mr. Beresford, will be the attraction at the Brainerd opera house at an early date.

NEED NOT BE
FREEHOLDERS

Provision of Brainerd City Charter Regarding Officers Unconstitutional

SO SAYS ATTORNEY GENERAL

City Attorney Mantor was Misquoted in the Tribune— Never Passed on It

The question of the eligibility of non-freeholders as municipal officers has been discussed considerably of late.

Wishing to get something official in the way of a decision Mr. R. A. Henning, candidate of the public ownership party for city treasurer, wrote the attorney general as follows.

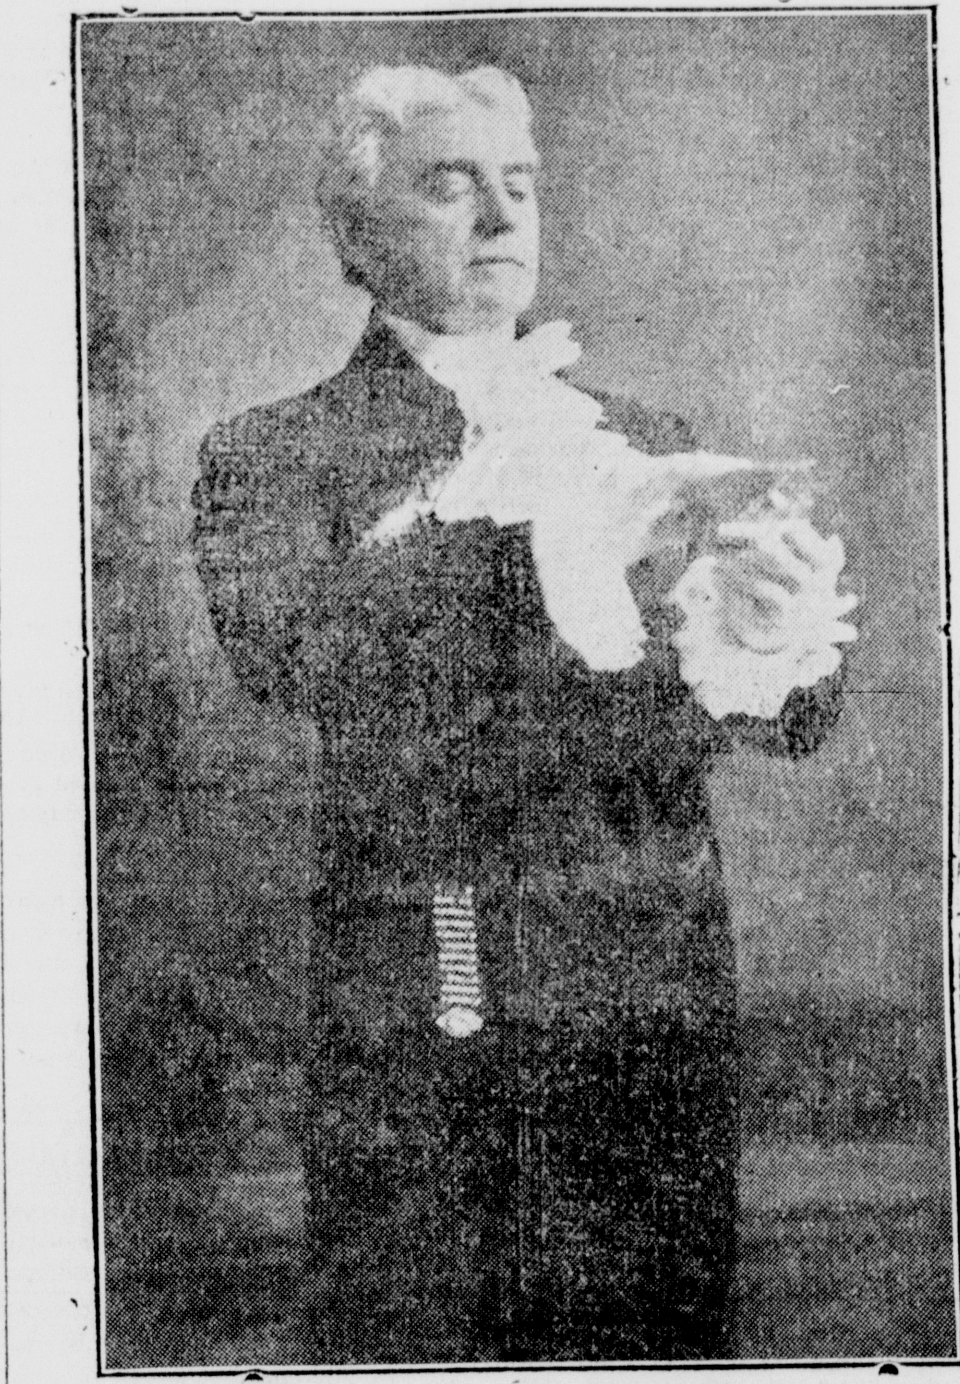

Brainerd, Minn., Oct. 16, 1906.

Mr. E. T. Young,

Attorney General,

State of Minnesota,

Dear Sir:—I would like to have you give your opinion on the following conflict between the state constitution and city charters in several of the cities of the state of Minnesota. Article seven of the state constitution defines who are legal voters. Also it says that legal voters are entitled to hold any elective office in the state to which they are elected. I understand that several cities including Brainerd, have articles in their charters, calling for a person to be a legal voter and also a freeholder. Is this qualification of being a freeholder, in violation of the state constitution?

Brainerd, Minn.

Dear Sir:—In your favor of the 16th inst. you ask whether a provision in a city charter requiring a city officer to be a freeholder is in violation of the constitution of the state. In answer I beg to advise you that it is. The constitution of this state provides that any legal voter may hold any office which is elective by the people in the district where he resides.

Yours truly,

E. T. Young,

Attorney General.

The Brainerd Tribune, in an extended article this week, stated that it had been informed that City Attorney Mantor held that the mayor and aldermen must be resident freeholders. Mr. Mantor was shown the letters above and the Tribune article, and in connection with the latter stated that he had been misquoted. He was asked by one of the aldermen as to the charter requirements and read the charter to him, passing no opinion as to the constitutionality of the provision, nor was the question raised.

FROM THE STATE CAPITAL

One of the most exciting and certainly one of the most important national conventions ever held in this country was the Republican national convention which assembled in Chicago in June, 1880. After a stormy session of a week the naming of candidates for president was reached. Roscoe Conkling had presented the name of U. S. Grant in a speech which as an oratorical effort was immortal. When the state of Ohio was called the late President Garfield arose to present the name of Senator John Sherman as a candidate. It was nearly midnight when he began his speech and I think it was the most impressive political event it was ever my fortune to witness. There was one passage in the speech which I never could forget and I wish every Republican in Minnesota could read it today. It is as pertinent now as it was then in its general application to politics and the ballot. I accordingly reproduce it here and invite every one who sees this letter to read it twice at least. The passage I refer to was this:

"Not here in this brilliant circle, where fifteen thousand men and women are gathered, is the destiny of the republic to be decreed for the next four years. Not here, where I see the enthusiastic faces of seven hundred and fifty-six delegates, waiting to cast their lots into the urn and determine the choice of the republic; but by four million Republican firesides, where the thoughtful voters, with wives and children about them, with the calm thoughts inspired by love of home and country, with the history of the past, the hopes of the future and reverence for the great men who have adorned and blessed our nation in days gone by burning in their hearts—there God prepares the verdict which will determine the wisdom of our work tonight. Not in Chicago, in the heat of June, but at the ballot boxes of the republic, in the quiet of November, after the silence of deliberate judgment, will this question be settled."

This eloquent appeal is applicable to the present election in Minnesota. It is not in the excitement of noisy political meetings or on great public occasions that the destiny of an election is or should be determined. It is by the half million firesides in Minnesota, where the thoughtful voters, with wives and children about them, with the calm thoughts inspired by love of home and state, with the history of the past record of the Republican party of Minnesota and the hopes for the future—there God prepares the verdict which will determine the wisdom of our work in November.

In that home, which not only means the world to you, surrounded by wife and children, the voter should not only decide how it is his personal interest to vote, but he should also resolve when he has decided to vote the Republican ticket, that, come rain or shine, he will surely cast his ballot on election day. With this calm and thoughtful deliberation no Republican will fail to see that his own and the public welfare alike demand the election of Albert L. Cole for governor and there at the home and fireside God will direct the wisdom of the verdict. It is a true and beautiful sentiment that, not in the hurly burly of life or in the excitement of the hustings, the verdict which means so much for the home and family, but by the fireside, is decided.

The calm judgment of thoughtful men can generally be relied upon to do what is best for the common good. It is a pleasure to be able to realize that the calm judgment of the Republican voters is in favor of returning Minnesota to the fold this year and removing the state from the doubtful column. It is just as important this year to resolve that you will under no circumstances fail to cast your vote as it is to determine how you will vote. The fact that the Democrats are making the entire campaign upon the one single office of governor is an unusual thing. Congress, the legislature, the state offices and all the county offices are relegated to the background and their everlasting salvation or the entirety for the Democrats is staked upon the election of governor. Quite naturally the Democrats will vote for the re-election of Johnson and even more naturally the Republicans can find every reason for voting for Cole.

Because he stands for the regulation and revision of railroad rates. Because he stands for reducing railroad fares to two cents per mile. Because he stands for draining the swamp lands owned by the state and putting them into the market as agricultural lands. Because he stands for equal and exact taxation of every interest, including the lumbermen who have so long escaped bearing their share of the burdens. Because he stands for wise immigration work and the building up of Minnesota both in wealth and population. Because he stands for state development in the wisest and broadest sense. And because every interest in the state, public and private, will be protected with Albert L. Cole in the governor's chair.

OIL KING WILL FIGHT

JOHN D. ROCKEFELLER WILL DIRECT REFENSE OF STANDARD OIL COMPANY.

HIS COMING NOT ANNOUNCED

HEAD OF THE CONVICTED OIL COMBINE ARRIVES QUIETLY AT CLEVELAND.

Cleveland, Oct. 20.—Without ostentation and without his coming being announced, John D. Rockefeller came to Cleveland to take up personally the fight which the Standard Oil company, as a result of the Findlay verdict, will now make for its own preservation.

When Mr. Rockefeller left the Lake Shore train at Collinwood, he had with him a man who was not known to those who happened to be at the station. There was no one there to meet the oil king and he and his companion boarded a street car and went to Forest Hill.

It is declared that Rockefeller returned so that he could personally direct the defense in the fight which the state is now making against the Standard Oil company.

Pre-eminent among the results of the conviction of Standard Oil company of Ohio for violation of the Valentine anti-trust act will be the early filing of a petition in the Ohio courts which will bring into issue the identical questions upon which the United States supreme court ruled in its decision in the Northern Securities company case.

Within the next ten days, unless there is a change in the plans, Attorney General Ellis will go to Washington for a conference with Attorney General Moody. Ellis will take with him a transcript of the most damaging evidence adduced in the recent trial of the Standard here. He will submit this to the United States attorney general as conclusive proof that the Standard Oil company of New Jersey is doing just what the Northern Securities company was prevented from doing. The Northern Securities company was prevented by the decision of the United States court from owning, controlling and voting the stock of other corporations in the other states.

The evidence obtained in the Findlay hearing is conclusive that the New Jersey company owns the controlling stock in the several subsidiary companies in this field and has been controlling their policies by having this stock voted by proxy annually.

WITH FITTING TRIBUTES.

Remains of Mrs. Jefferson Davis Laid to Rest.

Richmond, Va., Oct. 20.—With fitting tributes from a host of representatives of many states in the Southland, Mrs. Jefferson Davis, widow of the president of the Confederacy, was laid at rest in Hollywood cemetery, where rests the body of her distinguished husband.

Details from the local camps of Confederate Veterans escorted the body from the train to St. Paul's Episcopal church. The funeral services were conducted by Rev. Robert W. Forsyth, rector of the church, assisted by Rev. Dr. J. William Jones, chaplain general of the Confederate Veterans; Rev. Dr. James Power Smith, who was Stonewall Jackson's chaplain; Rabbi Calisch of Beth Ababa synagogue, Richmond; Rev. Dr. Landon R. Mason, Rev. Dr. W. W. Tudor and Rev. Dr. N. A. Seagle. The services were of the simplest character.

Conspicuous among the magnificent floral offerings at the funeral was one from President Roosevelt. This was placed at the base of the monument over the grave of President Davis. Mrs. Davis' resting place is next to that of her husband.

BEFORE GRAND JURY

LEADER MURPHY OF TAMMANY HALL APPEARS IN RESPONSE TO A SUMMONS.

RESULT OF HIS TESTIMONY

SUBPOENAS HAVE BEEN ISSUED FOR AT LEAST HALF A DOZEN OTHER PERSONS.

New York, Oct. 20.—Interest from an unexpected source was injected into the political campaign when Charles F. Murphy, leader of Tammany Hall, appeared before the grand jury in response to a summons from the district attorney's office to tell upon what he based his statement of Thursday that the managers of the Independence league were attempting to "hold up" Tammany candidates.

Mr. Murphy had intimated that Democratic nominees for congress, the senate and assembly, had been approached with a proposition that their opponents on the league ticket might for a money consideration to offset expenses already incurred, withdraw. From what little that is known of the proceedings before the grand jury it is understood that Mr. Murphy was questioned for thirteen minutes and that as a result of his testimony subpoenas were issued for a half a dozen other persons, including Representative Joseph E. Goulden, William Astor Chanler and Joseph Pendergast.

Later Mr. Murphy had nothing to add to his original charges. Representatives of the league who were seen denied emphatically that anyone in authority in the organization had been guilty of the practices attributed to them by Mr. Murphy. While the heads of the Republican and the Democratic Independence league tickets continued their campaigns up-state, several meetings in their interests were held in this city. The Republicans held three meetings in Manhattan and eight in Brooklyn. The Democrats had two meetings in Manhattan and eight in Brooklyn. All were largely attended.

Chief interest from a Republican standpoint centered in the Manhattan meeting, at which the principal address was made by Joseph G. Cannon, speaker of the house of representatives. Charles E. Hughes, Republican candidate for governor, started from Albany and, working west, invaded the Democratic stronghold of Schoharie county, finishing the day with a speech at Oneonta.

William R. Hearst, Democratic and Independence league candidate, arrived at Saratoga from Ogdensburg. He spent the day quietly but addressed a big meeting at Saratoga at night.

HEADED FOR MONTANA.

Troublesome Ute Indians Depart From Gillette, Wyo.

Gillette, Wyo., Oct. 20.—The band of Ute Indians whose threatening attitude toward the settlers in the neighborhood of Gillette caused government troops to be ordered to the scene, has pulled stakes and started in a body in the direction of Montana. The Indians heard of the order for troops and immediately began preparations for leaving.

Omaha, Oct. 20.—Major C. R. Noyes, military secretary of the department of the Missouri, states that orders have been sent to Fort Robinson for the immediate dispatch of two troops of the Tenth cavalry to the scene of the Ute depredations in Wyoming.

LYNCHING IN PROSPECT.

Mississippi Mob in Pursuit of a Negro Assaulter.

Mobile, Ala., Oct. 20.—Sheriff Powers has been notified that at Howard and Roberts' turpentine camp in Mississippi, near Pierce, Ala., Mrs. Humphreys, a white woman, aged twenty-three, was criminally assaulted by a negro. A mob of white men walked to Brushby, Miss., in pursuit and there took the train for Wilmer, where the negro had been. At last accounts the negro was coming toward Mobile with the mob in hot pursuit.

Mining Congress Ended.

Denver, Oct. 20.—The ninth annual session of the American Mining congress came to an end with the announcement by the board of directors of the re-election of the old officers as follows: J. H. Richards, Boise, president; Thomas Ewing, San Francisco, first vice president; E. R. Buckley, Rolla, Mo., second vice president; E. A. Colburn, Colorado Springs, third vice president; J. F. Gallbreath, Jr., Denver, secretary.

Respite for Mrs. Myers.

Marshall, Mo., Oct. 20.—Governor Folk announced here that next Monday he will grant respites for both Mrs. Aggie Myers and Frank Hottmann, who are under sentence of death for the murder of Clarence Myers, the woman's husband. This will allow the supreme court of the United States ample time to review the case of Mrs. Myers, whose case has been appealed to that tribunal.

DIED SUDDENLY OF HEART DISEASE.

How frequently does a head line similar to the above greet us in the newspapers. The rush, push and strenuousness of the American people has a strong tendency to lead up to valvular and other affections of the heart, attended by irregular action, palpitation, dizziness, smothered sensations and other distressing symptoms.

Three of the prominent ingredients of which Dr. Pierce's Golden Medical Discovery is made are recommended by some of the leading writers on *Materia Medica* for the cure of just such cases. Golden Seal root, for instance, is said by the UNITED STATES DISPENSATORY, a standard authority, "to impart tone and increased power to the heart's action." Numerous other leading authorities represent Golden Seal as an unsurpassed tonic for the muscular system in general, and as the heart is almost wholly composed of muscular tissue, it naturally follows that it must be greatly strengthened by this superb, general tonic. But probably the most important ingredient of "Golden Medical Discovery," so far as its marvelous cures of valvular and other affections of the heart are concerned, is Stone root, or *Collinsonia Can.*, Prof. Wm. F. Felt, author of *Felt's Epitome of Medicine*, says of it:

"I, not long since, had a patient who was so much oppressed with valvular disease of the heart that his friends were obliged to carry him up stairs. He, however, gradually recovered under the influence of Collinsonia (medicinal principle extracted from Stone root), and is now attending to his business. Heretofore physicians knew of no remedy for the removal of so distressing and so dangerous a malady. With them it was all a work, and it fearfully wasted the afflicted that death was near at hand. Collinsonia unquestionably affords relief in such cases, and in most instances effects a cure."

Stone root is also recommended by Drs. Hale and Ellingwood, of Chicago, for valvular and other diseases of the heart. The latter says: "It is a heart tonic of direct and permanent influence."

"Golden Medical Discovery," not only cures serious heart affections, but is a most efficient general tonic and invigorator, strengthening the stomach, invigorating the liver, regulating the bowels and curing catarrhal affections in all parts of the system.

Dr. Pierce's Pellets cure Constipation.

SYRIAN LEPER IS DEAD.

Heart Failure Puts an End to Unfortunate Man's Sufferings.

Clarksburg, W. Va., Oct. 20.—George Rashid, the Syrian leper who several months ago was driven from various cities in the East because of his affliction, died in a shanty at Pickens, near here. Heart failure was the cause of his death. The body will be cremated in a shanty built especially for him after his removal to that place by the Baltimore and Ohio railroad company a few months ago, when a nurse was placed in attendance.

Rashid left Elkins, W. Va., to go to a leper colony in New York but was discovered and ejected from the train and later captured at Keyser. The railroad company shipped him East in a box car, but he was not allowed to enter Philadelphia and was sent back to Baltimore, thence to Parkersburg, and finally to Pickens, where the county and state authorities took charge of him. Later a nurse came from New York to look after him but he circulated freely on the streets of Pickens, was assaulted and later shot at several times at the shanty.

EPISCOPAL CONFERENCE.

Bishop Tuttle Gives Figures on Contributions for Missionary Work.

Minneapolis, Oct. 20.—At the day's session of the Episcopal conference, Bishop Tuttle read a list of figures on the contributions by the twenty missionary districts and the sixty-three dioceses in the United States. Bishop Tuttle said that the sum of \$850,000 was raised last year for the missionary cause.

A resolution of sympathy was voted and sent to Theodore N. Morrison, bishop of Iowa, who is ill at his home in Davenport.

A committee was appointed to consider the matter of holding a conference next year. Owing to the fact that the general Episcopal conference convenes next October, the next session will not be held until 1908.

The principal addresses of the day were those of Rev. E. P. Smith, educational secretary, and Rev. J. B. Van Fleet of Watertown, S. D.

Aged Man Killed by a Train.

Menominee, Mich., Oct. 20.—While walking on the St. Paul railroad tracks near Brown's Spur, Olaf Kling, eighty years old, was run down and killed by a freight train. The old man had wandered away from his home and, being tired, had laid down on the track and was too exhausted to move when the train came along.
